

I am writing to voice my concern about the media consolidation that is already a reality in our country. We need to maintain some semblance of diversity and small ownership. I strongly oppose the proposed changes. Even worse than the consequences of media consolidation, and allowing individuals to own more of the media is the blatant disregard for public opinion. Also the fact as reported on Bill Moyer's NOW program that Commissioner Powell is taking gifts (payola) in the form of junket's in our country and abroad paid for by big media! Please do support these Monopolies, and especially not without any public debate or input.
